

STYLE CHART

Black Oak is from ancient times known as one of nature's own products made of oak stored submerged in a bog for centuries. Natural processes cause the oak almost to become black and this characteristic colour gives the wood a very authentic expression. Through a unique colouring technique Junckers has recreated this look and together with the excellent strength properties of the oak a very exclusive product for floors is achieved.

Junckers solid hardwood flooring is produced and categorized in accordance with EN 13226, EN 14342 and Junckers own factory

standard. The floors are made exclusively from solid hardwood and the photographs illustrate the colour, knots and structural graining variation characteristic for the specific wood species and grade.

Each photograph shows the average appearance of the grade. It is normal to see a variation in appearance between individual planks and floors produced and installed at differing times.

Up to 5% of the planks may contain features of the next style. Hardwood floors may fade and change colour over time, especially when exposed directly to sunlight.

20.5 MM BLACK OAK BOULEVARD SOLID HARDWOOD FLOORING

TECHNICAL INFORMATION

THICKNESS x WIDTH - **20.5MM x 185MM**

BLACK OAK BOULEVARD HARMONY

This grade has a natural black look with some colour and structural graining variation between the individual planks. Lighter tones of colour can be seen along the grain pattern and in the sapwood. Medium sized knots and fine hairline splits occur to some degree. Knots and other irregularities are factory filled with a one colour filler.
