Dimension

20.5 x 185mm (thickness x width)

Grades *See images on back page*

HARMONY

This grade has a natural look with more colour and structural graining variation between the individual planks. Lighter tones of colour are seen along the grain pattern and in the sapwood. Medium sized knots and natural fine splits occur to some degree. Knots and other irregularities are factory filled with a one colour filler.

VARIATION

This grade has a rustic look with substantial colour and structural graining variation between the individual planks. Extensive areas with lighter tones of colour are seen along the grain pattern and in the sapwood. Several small and large knots and natural fine splits occur. Knots and other irregularities are to the greatest extent possible factory filled with a one colour filler.

About the floor

Oak is a hardwood species characterised by being hard-wearing and therefore very suitable for flooring. The wood has a warm and golden glow, an interesting grain structure and over time the natural ageing gives the wood an authentic appearance. Slightly white toned by using the colour Nordic, a Scandinavian touch is added to the floor.

Junkers solid hardwood flooring is produced and categorized in accordance with EN 13226, EN 14342 and Junkers own factory standard. The floors are made exclusively from solid hardwood and the images illustrate the colour, knots and structural graining variation characteristic for the specific wood species and grade.

Each image shows the average appearance of the grade. It is normal to see a variation in appearance between individual planks and floors produced and installed at differing times.

Up to 5% of the planks may contain features of the next style.

Hardwood floors may fade and change colour over time, especially when exposed directly to sunlight.

OAK NORDIC BOULEVARD | GRADES

See page 1 for descriptions of the wood species and characteristics of the different grades. The actual colour on a wooden floor can vary from the colour shown in this style chart. This is due to the fact that colours are very difficult to reproduce on line and in printed material. Junckers accepts no liability to discrepancies and we always recommend ordering a physical sample before placing an order.
