STUDIO FLOOR

FLOATING FLOORING SYSTEM

The Studio Floor System is the absolute lowest-profile, “sprung” solid hardwood sports flooring system available. The sports floor system has been specifically developed for non-game lined applications, and provides DIN and EN safety and performance levels.

The top solid hardwood is joined together with Junckers Steel Clips, which allow for unique independent plank flexing, then floats over a 3/16” (5mm) performance foam underlayment for maximum resilience.

This sports floor system is ideal for renovation projects, or when the finished floor height must be kept to an absolute minimum. Most Studio Floor projects are completely installed and ready for use in just a day or two, with minimal disruption to ongoing business.

It is ideal for yoga flooring, and pilates.

SYSTEM COMPONENTS

1. 9/16" x 5" x 6' floorboards
2. Steel clips
3. Junckers SportsFoam
4. PE moisture barrier
5. Combi sports skirting

FACTS

Performance	DIN and EN tested for safety performance
Hardwood type	Prefinished 9/16" 2-strip solid hardwood
System construction	Performance sport foam / steel clips
Required subfloor	3/16" (5 mm) Performance Sports Foam
Total floor system thickness	3/4"
Sanding and re-sealing	Yes, to bare wood 4 times
Compatible with radiant heating	Yes

TEST RESULTS*

Shock absorption	40%
Vertical deformation	1.8 mm
Ball bounce	99%
Friction	> 0.4
Rolling load	1500 N ¹

1) Junckers' test with solid rubber wheels: Width 2", diameter 4".

WHY CHOOSE THE STUDIO FLOOR

- Low profile - only 3/4" thick
- Quick and easy installation - no sanding or finishing
- Excellent safety and performance ratings
- Wide range of colors and species
- A true floating “sprung” floor system
- Re-locatable. The floor can be taken up and re-installed. Ideal for leased facilities
- Can be installed over existing synthetic floors
- Provides excellent sound transmission ratings
- Easy maintenance
- Ideal over underfloor heating
